## Helping us to build on your child's learning

The purpose of the booklet below is to help parents/ carers find out more about how their child learns and develops during their first five years. The booklet helps parents understand what to expect during these important years of rapid development. It focusses on the seven areas of learning that are focussed in the Early Years Foundation Stage.

Refer to this booklet when you consider where your child is developmentally. What they can do and what their next steps for learning might be. The speech bubble pages have practical ideas on how you can support your child with their learning at home. (you can download your own copy for free from the weblink below)

Refer to this document when you complete the 'Learning and development' record sheet on the next page. Your child's keyperson will support you in completing this page.
